ER47301 "RELEASE NUMBER" NUM(1.0)

Release Number

November 2013: An error was corrected for how Completed Education for Head (ER52405) and for Wive/"Wife"(ER52406) were calculated for old Heads and Wives/"Wive's". Since all education questions were re-asked in 2009, completed education summary variables should have been re-calculated in 2009 based on this new information for old Heads and Wives/"Wives". The correction included bringing the corrected 2009 data forward to 2011.

We are also correcting the summary variable Births to OFUMS only - 2009 (ER52435).

In Release 2 we are suppressing two previously publicly released variables Beale Rural-Urban Code (ER52399) and Size of Largest City in County (ER52400).

We'd like to know more about how old HEAD was when (he/she) had the health condition(s) we just talked about.

To help you remember, I want to first ask you about some things that may have happened in (his/her) childhood.

ParentSepEHC. If HEAD's parents or guardians separated during (his/her) childhood, please tell me how old (he/she) was at the time of each separation, starting with the first time they separated. Any other separations?--SP RPT HEAD AGE < 1

The 3 landmark health EHC questions asked only about ages of the parental separation, move, or school start/change if any of these events happened. If the response to any landmark question was a denial across all 17 possible ages, we recoded those 17 age variables to inap.

We'd like to know more about how old you were when you had the health condition(s) we just talked about.

To help you remember, I want to first ask you about some things that may have happened in your childhood.

The 3 landmark health EHC questions asked only about ages of the parental separation, move, or school start/change if any of these events happened. If the response to any landmark question was a denial across all 17 possible ages, we recoded those 17 age variables to inap.

SchoolEHC. At what age did you first start going to school? If you changed schools during your childhood, please tell me how old you were each time, starting with the first time. Any other school changes?--SLF RPT WIFE/"WIFE" AGE 15

The 3 landmark health EHC questions asked only about ages of the parental separation, move, or school start/change if any of these events happened. If the response to any landmark question was a denial across all 17 possible ages, we recoded those 17 age variables to inap.

We'd like to know more about how old WIFE/"WIFE" was when she had the health condition(s) we just talked about.

To help you remember, I want to first ask you about some things that may have happened in her childhood.

ParentSepEHC. If WIFE's/"WIFE's" parents or guardians separated during her childhood, please tell me how old she was at the time of each separation, starting with the first time they separated. Any other separations?--SP RPT WIFE/"WIFE" AGE < 1

The 3 landmark health EHC questions asked only about ages of the parental separation, move, or school start/change if any of these events happened. If the response to any landmark question was a denial across all 17 possible ages, we recoded those 17 age variables to inap.

ER51736 "K-6 NON-SPEC PSYCHOL DISTRESS SCALE" NUM(2.0)
The K-6 Non-Specific Psychological Distress Scale

This scale was developed by Dr. Ronald Kessler, Professor of Healthcare Policy at Harvard Medical School. It includes six items, H59a-H59f (ER51730- ER51735), using a scale of 1-5, which ranges from 'all of the time' to 'none of the time.' The items are rescored as follows: A response of 'All of the Time' = 4 points, 'Most of the Time' = 3 points, 'Some of the Time' = 2 points, 'A Little of the Time' = 1 point, and 'None of the Time' = 0 points. The scores are summed; a score of 13 or higher indicates sensitivity around the threshold for the clinically significant range of the distribution of nonspecific distress.

ER51959 "M1 WTR DONATION>25 TO CHARITY LAST YEAR" NUM(1.0)
M1. Next, we will be talking about money donations to charitable organizations.

Charitable organizations include religious or non-profit organizations that help those in need or that serve and support the public interest. They range in size from national organizations like the United Way and the American Red Cross down to local community organizations. They serve a variety of purposes such as religious activity, helping people in need, health care and medical research, education, arts, environment, and international aid. Our definition of charity does not include political contributions.

Donations include any gifts of money, assets, or property or goods made directly to the organization, through payroll deduction, or collected by other means on behalf of the charity. This interview is limited to donations made during the calendar year 2010.

During the year 2010, did (you/you or anyone in your family) donate money, assets, or property or goods, with a combined value of more than $25 to religious or charitable organizations?

ER52026 "M14C WTR HD/WF VOLUNTEERED LAST YR" NUM(1.0)
M14c. Now we are interested in volunteer activities; that is, activities for which people are not paid, except perhaps expenses. We only want you to include volunteer activities that you (or [NAME OF SPOUSE]) did through or for an organization, even if you (or [NAME OF SPOUSE]) only did them once in a while.

Now think about last year, January through December of 2010. Did either you or [NAME OF SPOUSE] do any volunteer activity through organizations?

IF Yes: Was that just you, just [NAME OF SPOUSE], or both of you who volunteered (last year)?
During the interview, a couple was coded as 'Respondent' or 'Spouse' for this sequence. We have restructured the individual level variable into Head or Wife/"Wife" sequences for ease of use. Data for Head are coded in ER52028-ER52047; data for Wife/"Wife" are coded in ER52048-ER52065.

Note that the order of the questions for the volunteering section does not strictly follow the Box and Arrow version of the questionnaire because some of the variables are at the family level, some are asked of the Head and then some of the Wife/"Wife". We had move the family level variables M14C and M14C3 in order to keep the Head variables in sequence and the Wife/"Wife" variables in sequence.

For M14C and M14C3 only, the user would have to refer to the generated variable Who was the respondent (ER52097) to help clarify the responses to these two questions.

During the post-interview phase, we asked questions of the interviewer about the interview experience. For this series, IO28, we ask the interviewer if the Respondent had help answering any of the interview questions. We follow up asking who helped him/her. The sequence number of the helpers are located on the Respondent record of the PSID 1968-2011 Individual File at ER34112-ER34114. Once we have determined that the Respondent had help with the interview, we ask with which sections each of the helpers aided.

ER52399 "BEALE RURAL-URBAN CODE" NUM(2.0)

Beale-Ross Rural-Urban Continuum Code for 2011 Residence

This variable is suppressed (filled with zeroes) in the public release file to protect the anonymity of respondents. The data are available in a separate file to qualified users under special contractual arrangements with the PSID; for more information, contact us at PSIDhelp@umich.edu.

These codes are based on matches to the FIPS state and county codes. However, code values have been increased by one; that is, code 1 here is equivalent to code 0 as originally used by Beale and Ross. Metropolitan status is that announced by the Office of Management and Budget in June 1983, when the current population criteria were first applied to results of the 1980 Census. Adjacency was determined by both physical boundary adjacency and a finding that at least 2 percent of the employed labor force in the nonmetropolitan county commuted to metropolitan central counties.

ER52405 "COMPLETED ED-HD" NUM(2.0)

Head's Completed Education Level

Release 2 Note: An error was corrected for how Completed Education for Head (ER52405) and for Wive/"Wife"(ER52406) were calculated for old Heads and Wives/"Wive's". Since all education questions were re-asked in 2009, completed education summary variables should have been re-calculated in 2009 based on this new information for old Heads and Wives/"Wives". The correction included bringing the corrected 2009 data forward to 2011.

Values in the range 1-16 represent the actual grade of school completed; e.g., a value of 8 indicates that the Head completed the eighth grade. A code value of 17 indicates that the Head completed at least some postgraduate work. Values were computed as follows: If it is not known whether Head attended college (ER51924=8 or 9) or the number of years of college is unknown (ER51927=8 or 9), then the value is 99. Otherwise, if Head attended college (ER51924=1), then the value is 12 plus the number of years of college attended (ER51927). Otherwise, if Head did not attend college, (ER51924=5), the values are as follows:

(a) if Head is a high school graduate (ER51913=1), the value is 12;

(b) if Head received a GED (ER51913=2), the value is the last grade finished (ER51916);

(c) if Head neither graduated from high school nor got a GED (ER51913=3), the value is the last grade finished (ER51921);

(d) if it is not known whether Head graduated from high school, got a GED, or neither (ER51913=8 or 9), then the value is 99.

Education is asked only when the FU acquires a new Head. In cases where the Head has remained the same person from the previous interview (ER51865=5), this variable has been carried forward from previous years' data with no updating or other change. Education was reasked of all Heads in 1985 and 2011. See ER52354 for the recency of this information.

This variable differs from the individual level variable ER34119 in the treatment of Heads who received a GED but did not attend college. The family-level variable value for such Heads is the grade completed; for the individual-level variable, the value is 12.

Values were computed as follows: If it is not known whether Wife/"Wife" attended college (ER51830=8 or 9) or the number of years of college is unknown (ER51833=8 or 9), then the value is 99. Otherwise, if Wife/"Wife" attended college (ER51830=1), then the value is 12 plus the number of years of college attended (ER51833). Otherwise, if Wife/"Wife" did not attend college, (ER51830=5), the values are as follows:

(a) if Wife/"Wife" is a high school graduate (ER51819=1), the value is 12;

(b) if Wife/"Wife" received a GED (ER51819=2), the value is the last grade finished (ER51822);

(c) if Wife/"Wife" neither graduated from high school nor got a GED (ER51819=3), the value is the last grade finished (ER51827);

(d) if it is not known whether Wife/"Wife" graduated from high school, got a GED, or neither (ER51819=8 or 9), then the value is 99.

Education is asked only when the FU acquires a new Wife/"Wife". In cases where the Wife/"Wife" has remained the same person from the previous interview (ER51771=5), this variable has been carried forward from previous years' data with no updating or other change. ER52410 "YEAR NEW HEAD IN FU" NUM(4.0)
Year in Which 2011 Head Most Recently Became New Head

This variable contains the year of data collection in which background information in ER51865- ER51958 was most recently gathered for the 2011 Head. If a Head splits off from the main family, e.g., through divorce, background information is reasked. Some of this information can change over time; thus, this variable can be used by the analyst to indicate which waves of data might be searched to update the variables concerned. However, in the 1985 and 1997 waves, most background information was reasked. The 2011 variables that are equivalent to background variables asked of all heads in 1985 are ER51886- ER51897, ER51902- ER51905, ER51911, ER51913- ER51931, ER51934- ER51951 and ER51953- ER51954; the 2011 variables that are equivalent to background variables asked of all heads in 1997 are ER51866- ER51872, ER51876- ER51882, ER51904- ER51907, and ER51932. All immigrant sample Heads were asked this information in 1997 (or 1999, for the immigrant sample addition). All recontacts were asked for background information in 2011.

ER52427 "HOUSEHOLD ID #" **NUM(5.0)**

Household ID Number

This variable was generated to simplify the clustering of multiple panel family units residing in the same households. Its values were assigned simply by selecting a 2011 ID number (ER47302) with the lowest value from among the 2011 ID numbers (ER47302) of those families comprising each such household group. This value was used in these file positions for all of the related households. Thus, if the user sorts the data ordered by this variable, the family units within larger household groups will be adjacent to each other. Family units who did not share their households with any other family unit or shared only with non-panel family units were given their own values for ER47302. The range of values is 1-8738, but the series is not contiguous. See 'Linking Data: Families Sharing Households' in Section I, Part 5, of the guide to the 1993 family data, 93GUIDE.PDF, for a discussion of ways to identify shared households in the early years of the PSID.

ER52428 "BIRTHS TO HEAD ONLY-2010" NUM(1.0)
Number of Children Born During Calendar Year 2010 to Head But Not Jointly with WIFE/"WIFE", Husband of Head, or First-Year Cohabitor
NOTE: The information in ER52428- ER52435 is based on data gathered in birth history questions interspersed throughout Section J of the 2011 questionnaire. The birth data were asked for:

a) each male Head, unless all of the following were true: he was also Head in 2010, had the same legal Wife in both waves (ER52409=1 and ER52408=1 and ER47307=0-1), and she was age 45 or older at the time of the 2011 interview.

b) each female Head, unless both of the following were true: she was Head, Wife, or "Wife" in 2010 and was age 45 or older at the time of the 2011 interview.

c) each Wife or "Wife", unless both of the following were true: she was Head, Wife, or "Wife" in 2010 and was age 45 or older at the time of the 2011 interview.

d) all other family unit members, including husbands of Head (ER34103=90) and first-year cohabitors (ER34103=88), who were age 12 through 44 at the time of the 2011 interview.

e) all recontact Heads and Wives/"Wives".
